

UI Structure + Frontend–Backend Integration Plan

1 Define Frontend Page Structure

Pages of BuyBlink:

- Home Page
- Login Page
- Register Page
- Product Listing Page
- Product Detail Page
- Cart Page
- Checkout Page
- Admin Dashboard
- Add Product Page

2 Component Structure (Very Important)

- components/
 - |— Navbar
 - |— Footer
 - |— ProductCard
 - |— CartItem
 - |— Sidebar

3 Frontend ↔ API Mapping

Page	API Used
Login Page	POST /api/auth/login
Home Page	GET /api/products
Add Product	POST /api/products
Orders Page GET	/api/orders/user/:id

4 Integration Plan (Very Important)

- Use fetch() or axios
- Store JWT in localStorage
- Use protected routes for admin
- Show loading state during API calls
- Handle error responses properly
