

System Architecture & User Flow

◆ Step 1: BuyBlink has 3 main parts:

- **Frontend** – UI (Home, Login, Dashboard, Products)
- **Backend** – APIs, business logic
- **Database** – Stores users, products, orders

◆ Step 2: System Architecture Diagram

◆ Step 3: Define User Flow

1. User opens BuyBlink home page
2. User registers / logs in
3. User browses eco-friendly products
4. User views product details
5. User adds product to cart
6. User places order
7. Order details stored in database

Admin flow :

- Admin logs in
- Adds/updates products
- Views orders report
